

Chance

No need to gamble on comfort and style with the fun, fluid design of Chance – the multifunctional side chair at an unlikely price.

Ideal for guest seating, its architectural sensibility also places it proudly in waiting, meeting and collaborative environments. And, with an exclusive arm design as well as an optional ganging device, Chance is more than luck of the draw; it's a hands down winner.

2510-S

Stackable guest chair features signature black arm with Metallic Silver frame finish and glides.

With arms or without, on glides or casters, all Chance chairs stack five-high on dolly or four-high from the floor.

2560-S
Barstool features Metallic Silver frame
finish, convenient footrest and sits
comfortably at 30" from the floor.

2535-B
Armless model with black frame
finish and casters.

Optional ganging device allows effortless connection capability between arm and armless units. When not in use, device folds underneath seat for concealment.
