

Lingo

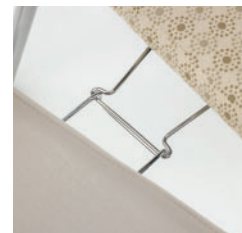

Lingo

The language of this highly refined side chair reigns poetic and practical: Lingo is modern with an ultra-streamlined design, expert tailoring and signature arms worthy of conversation.

With convenient stacking and ganging capabilities, Lingo thrives in meeting, training and lunchroom environments. And with style that surpasses typical stack seating applications, its place in lobbies, waiting areas and executive offices is easily understood.

Optional ganging device connects arm and armless models with ease and folds under seat for concealment when not in use.

2615-B

Arm chair features black frame finish and casters.

2630-S

Armless model highlighted with Metallic Silver frame finish and glides.

2610-S

Arm or armless, with glides or casters, all models are capable of stacking five-high on dolly and four-high from the floor.

2670-S
