ENCORE LAUNCHES *NEXXT*— THE VERSATILE SEATING COLLECTION
THAT NESTS, STACKS, TASKS AND MORE!

La Palma, CA — Southern California-based Encore Seating today announced the introduction of Nexxt, its much-anticipated collection of nesting stack chairs, stackable guest chairs and high-performance task models. Developed to complement a wide variety of work and waiting spaces, Nexxt redefines versatility with a playful, yet functional appeal.

The third collaboration with designer Francisco Romero of PhiDesign, Nexxt answers to the needs of the omnipresent multi-tasker by providing multifunctional seating solutions that offer convenience and purpose within a small footprint. “With slim back and seat profiles, a contemporary frame, and signature arm, Nexxt creates an experience that is poised to become the next great breakthrough in seating,” says Encore National Sales Manager, David Logsdon. “While the entire series is filled with well-executed concepts and fine-tuned results, the hero product is certainly the nesting stack chair,” adds Francisco Romero.

Engineered with flexibility and space-saving benefits in mind, the Nexxt nester/stacker is easy to maneuver and store. With a flip-up seat for infinite nesting capabilities, it can also stack up to four high standing to allow for quick and easy storage. In addition, it can be readily repositioned and moved to different locations, making it the perfect choice for multi-purpose spaces.

The stackable guest chair is much like the nester/stacker with the exception of the nesting capability, yet it boasts the added convenience of an optional ganging device. In addition, the high performance task and stool models are a popular choice for workstations, training areas, conference centers, educational facilities and more.

All models are available with arms or without as well as with black or silver frame finishes, glides or casters and a wide range of features and options.

Nexxt Release/Page 2

Since 1999, Encore Seating has been answering a marketplace need for quality products at great value. With its organizational ties to Arcadia, Encore has helped raise the benchmark in design, comfort and flexibility with competitive pricing, standard lead times of two weeks or less, and a lifetime warranty on all seating components.

As part of Encore's exhibit at the NeoCon World's Trade Fair in Chicago this June, the entire Nexxt collection will be on display in booth 8-4022.
